

MEDIA RELEASE

JULY 2017

## WINNEBAGO SHOWS ADELAIDE NEW RVS

Winnebago Australia is showcasing new products and upgrades to the public at the upcoming **Let's Go Caravan & Camping Super Sale from 27-30 July**.

2017 started off strongly for Winnebago Australia with the launch of **3 new Motorhome products** and Winnebago's first ever **X-Country Caravan**.

Of these new releases, the **Kirra** four berth motorhome will be rolling into the Adelaide Showgrounds. The Kirra is made for entertainment and comfort with multiple entertaining areas and a centralised separate shower and toilet. To maximise living space, the rear club lounge has an intelligently designed queen-sized drop-down bed, which lowers from the roof at the touch of a button.

For the more adventurous travellers, the classic **Bondi 4S** Mercedes Sprinter campervan will be on display, featuring new luxurious silver exteriors and black decals. Seat belted for four but sleeps two, the Bondi 4S is cleverly designed with two large parallel seats at the rear, which electronically slide across to fill the seating space, transforming the area into a generous queen-sized bed.

After launching the first Australia-made **Winnebago caravan** 18 months ago, the full range now includes six comprehensive models, all containing a plethora of standard inclusions. On the Winnebago stand at this year's Let's Go Supersale, the 22 foot **Mossman C** family caravan will be on display. This van is the perfect 5 berth layout, featuring bunk beds and Winnebago's famously large rear bathroom. Additionally, the 19 foot **Burke B caravan** will also be on display; with rear entry and a wide range of standard features including solar panels, washing machine and AL-KO IRS.

The addition of the **X-Country** caravan pack marks the first Winnebago Caravan designed for rugged Australian terrain with AL-KO Enduro independent suspension, an off-road tow hitch and an array of additional upgrades. While the X-Country pack is not on display at the show, it is available now for order across the full Winnebago caravan range, allowing customers to take their Winnebago caravan further than ever before.

Winnebago has continued to go from strength to strength since their Australian launch in 2014, with no signs of slowing down. You can a current range of Winnebago products at the upcoming Let's Go Caravan Supersale, on **Site W16** at the Adelaide Showgrounds 27 – 30 July 2017.

As an added benefit for show attendees, the Winnebago Adelaide dealer, **Apollo Caravan & RV Sales** are **GIVING AWAY a \$1000 camping pack including a Weber Q, coffee machine, \$500 fuel voucher AND MORE**. Entry forms and T&Cs available at stand W16.

**Following the show, the Winnebago range will be available at the new Adelaide Apollo Caravan & RV Sales dealership, located in Croydon Park.** The dealership has a range of new

and used caravans, motorhomes and 4wds from leading industry brands including Adria, Winnebago and Talvor.
